

# Business Analysis Report

---

## Executive Summary

This report analyzes sales, profit, customer, regional, and category performance using SQL, Excel, and Power BI.

### 1. Is the Company Growing Month-over-Month?

The company shows a generally stable sales trend with periodic growth across months.

### 2. Which Region is Underperforming?

The region with the lowest sales and profit contribution should be considered underperforming and requires targeted improvement strategies.

### 3. Which Category Has the Highest Growth?

Technology appears to be the strongest performing category in terms of growth and profitability.

### 4. Are Discounts Reducing Profit?

Higher discounts tend to reduce profit margins and should be monitored carefully.

### 5. Which Customer Segment Contributes the Most Revenue?

The Consumer segment contributes the highest share of revenue compared to other segments.

## 6. Strategic Recommendations

- Focus on high-performing categories
- Improve underperforming regions
- Optimize discount policies
- Strengthen customer retention
- Continue data-driven decision making

## Conclusion

The company demonstrates healthy business performance with opportunities for further growth through strategic decision-making.
